Examiner's Comment

1. The drawings were received on 4/30/04. These drawings are not acceptable since they were filed by fax and are unclear and fuzzy.
2. New corrected drawings are required in this application because the replacement drawings of 4/30/04 are not clear, since they were filed by fax and the drawings of 10/17/01 and 2/12/02 failed to provide proper margins. To avoid confusing the printer a complete set of formal drawings with proper margins is required. The set should include figures 1-46. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
